

Confidential Internet Payments Access Information

We are delighted to inform you of the Mawsley Primary School Internet Payments system. This will allow you to make payments to our school using the Internet.

If you are interested in receiving a user name, and log on details to be able to make payments direct to school by debit or credit card, please complete the form below, and return it to the school office.

You will then be issued with a letter which gives instructions on how to create an account to use for online payments. You can use this same account for any children you may have at this school, and for children at other schools where the same online payment system is used.

You will simply create the online account by following the information given. Link your child(ren) to this account. The school will provide a separate Pupil Link Code for each child that you have at our school.

MAWSLEY CP SCHOOL INTERNET PAYMENT ACCESS.

I would like to receive details for the Confidential Internet Payments Access at Mawsley School.

Child's Name: Class:
