

Science

at Mawsley School

As scientists we are developing our knowledge and understanding in:

- Working scientifically.
- Biology – understanding plants, understanding animals and humans, investigating living things, understanding evolution and inheritance
- Chemistry – investigating materials
- Physics – understanding movement, forces and magnets, understanding the earth's movement in space, investigating light and seeing, investigating sound and light, understanding electrical circuits
- Scientific Vocabulary

As learners we are:

- Retrieving information
- Making links to previous learning
- Active
- Challenged
- Developing our understanding of community, diversity and growth
