

COMMUNITY (underpinned by our value – friendship)

Intent	Implementation	Impact
<p>To enable our children to be positive members of our school, the Mawsley and eventually global community they will:</p> <ul style="list-style-type: none">• Learn they are part of a community wider than their own family and understand ways to demonstrate pride and responsibility in helping make their community a good place to be.• Know about and understand the world beyond their immediate experience, they will learn about a range of cultures and experiences, and understand their place in the local and global community e.g. through safe and critical use of technology or environmental issues.	<p>Community objectives are implemented through many of our enrichment projects such as Grandparents Day, Remembrance Day, Arts festivals and our National Curriculum topics for RE, geography, history, PSHE alongside safety education in computing lessons. Our Protective Behaviours ethos also enables our adults to both teach and lead by example in how to be a positive member of our community by showing friendship and respect for others and developing good relationships.</p>	<p>The impact of a successful community driver will be seen by our children feeling secure and confident in our school community and able to give examples of how they are part of the wider community sharing their enjoyment as well as their responsibilities.</p>
